G. O. P. MAINE VICTORY PLEASES BIG BUSINESS

News Checked Downward Trend in Wall Street and Led to Some Advances.

OIL'S NEW HIGH RECORD

lackawanna Hits High Mark, There Is Mysterious Buying of Eric, Sterling Makes a New Low Record and Tobacco Goes Up.

BY BROADAN WALL. NEW YORK, Sept. 14.—Big business rejoiced today over the Republican victory in Maine. This rejoicing was not reflected in very large gains in the stock market, but it did check a decided downward trend that had de-veloped yesterday and caused many advances. advances. At the opening the oil stocks displayed the greatest enthusiasm. They approached the high records made last week, but later when the steels became strong good selling of the petroleum issues was observed. This was evidently done to equalize the market. The oil people do not want their stocks to run away and become conspicuous.

market. The oil people do not want their stocks to run away and become conspicuous.

Early in the day Lackawanna jumped to a new high record at 260 and the Street got a report that official announcement would be made within twenty-four hours of the segregation of the company's coal property. The mysterious buying of Eric Railroad stock that has attracted much attention continued, putting both the common and first preferred materially higher.

Sterling went to \$3.43½, thus recording a new low level, with the exception of the break of last March. Another new low record established was that for Argentine exchange at \$3.1 cents per doilar. Thus the principal foreign financial markets stand favoring the United States. The importation of gold from France is still expected to reach nearly \$100,000,000. American Tobacco made a new high record on the unofficial denial of a report that no new stock issue was contemplated at this time, although an increase of the capital stock is to be voted on tomorrow.

Passing of the quarterly dividend by the Cudahy Packing Company cheered Wall Street a bit as evidence that the cost of living is being reduced.
